

# High-Tech Manufacturing and Logistics

There is a reason leading high-tech manufacturing and logistics companies choose New Albany.  
*We get business.*

“ The area offers a major logistics hub and a fantastic talent pool. We’re within a two-day drive of two thirds of the U.S. population and Ohio State has one of the best supply chain and logistics programs in the country. Within the park, there is a commitment to innovation that has enabled us to partner with other companies. ~ Larry Grischow *Senior Vice President, Supply Chain and Procurement, Abercrombie & Fitch Co* ”

## Columbus Metropolitan Region

The 14th largest city in the country, Columbus is also the fastest growing metropolitan area in the Midwest. Its strong entrepreneurial spirit – the city ranks first in scaling startups – makes it a great place to innovate. It's home to Battelle Memorial Institute, the world's largest nonprofit research organization, and the IBM Center for Advanced Analytics. It offers one of the largest populations of college graduates—36,000 annually—in the nation. An affordable cost of living, vibrant communities, good schools and low crime rate led *Money* magazine to rate Columbus as the best big city in the Midwest.
